SUMMARY

Computer Science undergraduate with a foundation in Java, Python, and core programming concepts. Familiar with backend basics and database management through academic projects. Strong problem-solving skills and eager to learn and grow in real-world development environments.

EDUCATION

Galgotias University, B.Tech in Computer Science

CGPA: 8.70/10 | Sep'23 – June'27

KNICE Sultanpur Uttar Praadesh Class XII

Percentage: 83.2 | May 2022-2023

KNICE Sultanpur Uttar Praadesh, Class X

Percentage: 84 | May 2021

TECHNICAL SKILL

- **Languages:** Python | **Frontend:** HTML, CSS.
- **Core Skills:** Basics of DBMS, MySQL, OOPS, Machine Learning, Deep Learning, SDLC, APIs.
- **Soft Skills:** Collaborative Learning, Adaptive Learning, Problem Solving.

PROJECT

Driver Drowsiness Detection System | Python, OpenCV, Machine Learning

Nov 2024 – Dec 2024

- Developed a real-time Driver Drowsiness Detection system to improve road safety by identifying driver fatigue.
- Implemented computer vision techniques using Python and OpenCV with facial landmark detection for continuous monitoring.
- Optimized detection logic and alert mechanism to ensure real-time responsiveness and accuracy.
- Achieved 98% detection accuracy, demonstrating strong performance and practical implementation capability.

Real-Time Object Detection using YOLO | Python, YOLOv5

10,Jan 2026 – 15, Jan 2026

- Built a real-time object detection system using a pretrained YOLO model to classify objects from live video streams.
- Implemented model inference pipelines in Python, handling frame processing and optimizing detection speed for real-time performance.
- Achieved strong detection performance with the COCO dataset, earning full academic evaluation marks and faculty recognition.

INTERNSHIP

Python Full Stack Development Intern, EduSkills

Aug 2025 – Oct 2025

- Built and enhanced full-stack web applications using Python, Django/Flask, HTML, CSS, JavaScript, and databases, focusing on clean architecture and backend logic.
- Implemented APIs, authentication flows, and CRUD functionalities, improving application performance and ensuring secure data handling.
- Collaborated in a virtual development environment, practiced Git version control, debugging, and agile workflows while delivering assigned modules within deadlines..

CERTIFICATON

- CS50 Introduction to Python Programing, Harvard University- 2025
- Career Edge – Young Professiona, TCS iON - 2025
- Database Management System, Oracle -2024

ACHIEVEMENT

- LeetCode: 400+ Questions ,100 Days 2025, 50 Days Active, Monthly Badges (Oct–Nov)
- HackerRank: Problem Solving 3★ | Python 4★ | SQL 4★
